

16. (amended) The method of claim 1 wherein substantially every cranberry has a mature mass of about 0.2-0.6 grams.

17. (amended) The method of claim 1 wherein substantially every cranberry has a mature mass of about 0.3-0.5 grams.

46. (as originally filed) The yield of claim 45 wherein the yield is produced by applying to the plant a plant-growth-regulating composition when about 50-90% of flowers on the plant have opened.

47. (amended) The yield of claim 45 wherein the yield is produced by applying to the plant a plant-growth-regulating composition when about 60-80% of flowers on the plant have opened.

48. (amended) The yield of claim 45 wherein the plant-growth-regulating composition includes an active ingredient which is gibberellin.

49. (amended) The yield of claim 45 wherein a solution including the composition is applied to the plant.

50. (amended) The yield of claim 48 wherein the solution is an aqueous solution.

51. (twice amended) The yield of claim 49 wherein the composition is  $GA_3$ .

52. (amended) The yield of claim 48 wherein the composition is commercially applied to cranberry plants and the solution has a concentration and is applied in an amount so that about 10-80 grams of active ingredient are effectively applied per acre covered by plants.
